Established 2023

...Revitalizing Nigeria's Global Shipping

■ NIGERIAN PRIVATE SECTOR INTERNATIONAL SHIPPING LINE ■ PROVIDING TRAINING PLATFORMS FOR NIGERIAN SEAFARERS

REF: MSOIR/UAE/VOL.01/001

27th October 2025.

His Excellency,
Consul General of the United Arab Emirates,
8th Floor, Block A, Nipost Towers,
No. 1 Ologun Agbaje Street off Adeola Odeku,
Victoria Island, Lagos.

Your Excellency,

**REQUEST FOR FACILITATED INTRODUCTIONS TO UAE INVESTMENT ENTITIES —
MARITIME SHIPPING AND OCEAN INTERNATIONAL RESOURCES LIMITED
(MSOIR LTD)**

On behalf of MSOIR LTD., we wish to formally express our appreciation for the opportunity to engage with your esteemed Economic Affairs team during our recent introductory call.

MSOIR LTD was established in 2023, as a consequence of the absence of Nigerian indigenous participation in international trade and freighting of our export and import cargo. This absence of government and commercial participation limits the country's ability to tap into a market with potential freight revenues exceeding USD 9Bn and massive job creation opportunities for the Nigerian populace. Since the liquidation of the Nigerian National Shipping Line (NNSL) in 1995, and that of its successor National Unity Line (NUL) in 2005, the country remains absent in global shipping domain and is at the mercy of foreign shipping lines for all its import and export activities.

We are taking intentional steps to position the company to commence international trading, leveraging on market drivers such as the Africa Continental Free Trade Area (AfCFTA) agreement, the Dangote refinery project and other existing opportunities which require shipping services.

Head Office

15c Omerelu Street, GRA,
Phase I Port Harcourt,
Rivers State,
Nigeria.

Company Secretary: Roothe Kharis & Partners

Some of the steps we have taken thus far include:

- Concluded a comprehensive market study and assessment by Lloyd's Register to identify the most viable cargoes to be shipped and prominent trade routes, which would sustain long term financial returns
- Completion of registration and licensing with all relevant Nigerian regulatory agencies as a shipping company
- Advanced exporter/importer engagements
- Identification of prospective vessels for purchase or charter

In order to address the gaps in the country, MSOIR LTD.'s immediate focus is on acquisition of vessels which have the capacity to carry containers, bulk cargo and chemical products. MSOIR has identified some vessel candidates and is looking to acquire:

- 2x Multi-purpose vessels – estimated at USD 10million each
- 2x Container ships – estimated at USD 15million each
- 2x Chemical tankers – estimated at USD 35million each

The estimated cost for acquiring all six vessels stated above is USD 120million. We believe that with the current engagements with cargo owners, and their current expression of interest in developing working relationships with MSOIR LTD, the off-takers are poised to benefit from the services we intend to provide.

Given the UAE's demonstrated strategic interest in strengthening industrial cooperation with Nigeria — particularly across maritime logistics, energy services, and industrial infrastructure — we humbly request the support of the Consulate in facilitating introductions to relevant UAE sovereign funds, strategic industrial investors, maritime conglomerates, or industrial investment platforms who may find alignment and long-term commercial value in partnering on this nationally significant project.

We would be honoured to provide further technical, financial, and strategic documentation on request and are open to hosting a dedicated investor presentation session at your convenience — either virtually or in person.

We remain deeply grateful for your consideration and look forward to the privilege of stronger bilateral collaboration under your facilitation.

Yours faithfully,

For: Maritime Shipping and Ocean International Resources Limited

Greg Ogbeifun
Chairman
