Chairman's Message

The Ajman Chamber of Commerce and Industry is committed to diversifying the tools and facilities it offers to support its members. Publishing guides and providing information and statistics are among the most potent of these tools and a major source of business growth and sustainability for the members of Ajman Chamber.

The Exporters' Guide is the latest of these manuals that the Chamber is offering to traders and investors, highlighting available and future opportunities to form partnerships, expand export operations and attract new establishments to venture into this vital sector. It offers a platform for potential investors to explore the leading industrial and commercial opportunities in Ajman, as well as its main exports.

The Guide sheds light on the Emirate of Ajman's strengths in the export sector, as well as its untapped potential in that regard. It introduces the leading exporters in Ajman, as well as the main local products exported to regional and international markets.

The Ajman Chamber of Commerce and Industry is committed to supporting its members and providing them with the necessary support to increase the volume of exports. The Chamber continuously publishes updated information and data, all while expanding its own network of relations with global economic organizations to expand access to existing and new foreign markets.

H.E. Abdullah Al Muwaiji
Chairman of the Board of Directors,
Ajman Chamber of Commerce and Industry

Director's Message

The Emirate of Ajman has competitive economic traits that help drive up its export volume, from its central location within the UAE, to the Port of Ajman, to its extensive road network that connects it with all land, air, and sea ports in the country.

Ajman Chamber is working to develop its export sector, lending its support to member companies to expand into new markets. The Chamber has launched the Exporters' Guide to provide information and data to enhance Ajman's competitiveness in the sector. It outlines a road map for us all to follow and collaborate to boost the emirate's export volume, identify the most exported items, and determine the growth prospects of other products.

The Guide presents an important tool for decision makers in the emirate, as they work to meet our leadership's aspirations to develop the sector and increase Ajman's export volume, in line with the growing industrial sector that now contributes to 19% of the emirate's GDP.

Ajman Chamber will constantly work to update the Guide and present the latest developments in the exports sector. We will also cooperate with our partners to organize seminars to foster greater communication between our members and their counterparts from other countries. This, in turn, serves to promote the emirate's position on the export map locally, regionally, and globally.

H.E. Salem Al Suwaidi,
Director General,
Ajman Chamber of Commerce and Industry

ZUHAL PLASTIC BAGSS MANUF L.L.C

Zuhal Plastic Bags Manufacturing was founded in Ajman U.A.E in 2006 as a speciality plastic packing manufacturer for the national catering industry. Our position as a competent manufacturing partner led to the expansion of manufacturing capabilities to cater to other regional industries in a very short time.

In just 14 years from inception, the company was able to create a feeling of quality and satisfaction in the customer's mind. This signified the company's position as a regional industrial innovator and was the beginning of the path to expansion.

Within a short period of time, Zuhal Plastic Bags Manufacturing became a well-established name in the field of plastics in UAE and we are approved by the UAE Ministry of Environment to produce biodegradable plastic bags.

Assistance
The percentage of test dust, by weight, that is held in capture.

Minimum Efficiency Reporting Value (MERV)
A numerical system for comparing filter efficiency. It ranges from 1 to 16. A filter with a MERV of 1 is least efficient and a MERV of 16 is most efficient.

Particle Size Efficiency (PSE)
The filter's ability to remove airborne particles by particle size. Ranges from 0.3 to 10.0 microns in diameter, using controlled aerosol containing oil particles.

Ahmad Maghribi PERFUMES L.L.C

Ahmed Al Maghribi Perfumes first started as a hobby of its founder Mr. Kafeel Ahmed. His passion for perfume making was so intense that it has evolved into being one of the most loved perfume brands in the region.

During this 20 years plus journey, a lot of new fragrances have come into existence. However, the ones that they initially started with, are even today of key essence.

The love for fragrance creation has been extended by creating occasion specific perfumes, it's just like wearing different attires depending on the place and occasion on intends to attend.

Our perfumes are produced by maintaining a close work relationship with the local community. Some people know exactly what they want and that helps us create personalised fragrances for them. Also, we set ourselves apart from the approach of creating perfumes that follow fashion.

Our approach is strongly based on culture and tradition. We understand that perfumes have strongly impacted the Arabic culture. For example, Oud and musk are fragrances loved by the prophet according to the Arabic tradition.

Furniture, Wood & Cork Manufacturer

Olympic Foam And Furniture Industry LLC

Without a doubt Olympic Foam And Furniture Industry LLC is a widely recognized name in Asia and Africa. We have been in the market for over 40 years since 1980. Within the span of these years, we have achieved the goal to be a preferred brand when it comes to furnishing entire buildings. We can offer more than 5000 different furniture items and accessories, each of them in stock. This alone is unheard of in the business world and we manage to achieve it by maintaining storage areas of more than 3000000m2.

We have more than 25 production and assembly lines. Once set up they are fully automated and can produce large orders in no time. Following up on our promise to our customers to offer them a variety of styles and top quality furniture. We are a leader in modern and contemporary furniture manufacturing. Our expertise in innovative and sophisticated design is reflected in the high quality of our products.

The growth of our business rests on research, development, and efficient manufacturing and management processes. Our concern for our customer is manifested by our competent, qualified, and outgoing teams, focused on solutions. Through our pledge to quality of service and the talent of our people, we are committed to be an innovative industry leader whose growth and success is anchored by our values, integrity and dedication to customer service.

KOMANCO FOODS COMPANY LTD

KO-A trading started its business with the Middle East in 1984. It first launched drinks, snacks and cup noodles in Saudi Arabia and has enlarged its market through all GCC countries as the sole agent of Nong Shim, one of the world-famous noodle companies. As a pioneer of Korean company in the Middle East, it has very strong relationship with major wholesalers in the Middle East Area and has introduced new items from Korea for the last 24 years. KO-A Trading's main philosophy is to carry and make the top quality food because we care customers health and life.

In order to boost its efficiency and develop solid relations with the area, KO-A trading invested and established a snack factory, KOMANCO FOODS in Ajman, U.A.E. in 1996. KOMANCO FOODS has a technical agreement with Nong Shim and set up all the facilities under the quality control of Nong Shim. KOMANCO FOODS imports raw materials from Nong Shim and manufactures snacks to export neighboring countries such as K.S.A, Qatar, Kuwait, Bahrain and Egypt.

KO-A Trading, as an expert of the Middle East, has special recipes for Muslims not to contain any pork or harmful contents in the ingredients. Especially, Nong Shim whoes company slogan is 'Do Dream World Best' has focused on manufacturing 'Halal' products in order to supply safe food to Islamic people as well.
